Hello Scott,

The most recent presentation we gave to Richmond City Council (May 2014) is posted on the site website: epa.gov/region09/unitedheckathorn. I expect to receive an internal draft Feasibility Study in August. Depending upon how much revision is needed, the report should be finalized and publicly available sometime in the fall of this year. Jackie and I are both available tomorrow if you have further questions; if you would like to have a call, please let us know your availability.

OK. Can I get the last update? And is the EPA still on schedule to complete the Feasibility Study Report in August?

Thank you,
Scott

It depends. Mostly, we send fact sheets by mail and update the televised City Council meetings quarterly.
J

Thank you. Should I be expecting email or hard-copy updates. Also, would it be possible to get copies recently issued updates?

Thanks again,
Scott Bodensteiner

I apologize as it looks as though I made a mistake with Rachelle's address in the previous email.

Scott

Hello Rachelle and Jackie:

My firm is supporting the dredging programs for two facilities on the Lauritzen Channel IMTT (former Texaco) and Levin Richmond Terminal, and would like to be added to the mailing list for EPA's United Heckathorn Superfund updates.

Thank you,
Scott
